## Self-Test / Configuration print out

To print the configuration report and self-test:   With Power on, press the paper feed button twice quickly.
To access configuration menu refer to Operator's Manual.

## USB Access to Printer Web Pages

1. Connect USB cable from printer to host
2. With printer turned on, set the printer into configuration mode by double-clicking the POWER button.  Both the Power LED and Fault LED will flash together.
3. Open browser on your host and type _169.254.200.1_ into the address bar of the browser (**Note:** Firefox or Chrome will work best) and hit Enter.
4. A login box should appear.

> **FP530 Configuration Interface**
>
> Password: [          ]
>
> [ Login ]
>
> www.printek.com

5. Type "0000" and hit Enter- you should now be at the home page for FP530 Configuration.
6. To return the printer to normal operating mode, double-click the POWER button.  The Power LED will be returned to a solid light.

Once the printer is connected via USB _and_ in _IP over USB_ mode it is temporarily not possible to access the Internet.
