USB Access to Printer Web Pages

1. Turn the printer ON.
2. Connect a USB cable between the printer and a PC.
3. To access the FP-541 web page, push the Power button twice rapidly. This will put the printer into Configuration mode.
4. When the printer is in Configuration mode the POWER and FAULT LEDs will flash together.
a. Open browser on your PC and type _169.254.200.1_ into the address bar of the browser and hit Enter - A login box should appear:
b. Type "0000" and hit Enter- you should now be at the home page for FP-541 Configuration.
5. To return the printer to normal operating mode, double click the POWER button.   The Power LED will be returned to a solid light.

Once the printer is connected via USB <u>and</u> in *IP over USB* mode it is temporarily not possible to access the Internet.
